

MURADUZZAMAN ASHA

CYBER SECURITY | BLUE TEAM | SOC | SIEM

📍 Tangail, Bangladesh — 📞 +8801761174373 — ✉️ muraduzzamanasha.job@gmail.com
🌐 Portfolio — 🐙 GitHub — 🔗 LinkedIn — ☁️ TryHackMe

Professional Summary

Recent **B.Sc. Engineering graduate** in Information and Communication Technology with a strong passion for Cyber Security and hands-on experience in penetration testing, vulnerability assessment, web application security, and Capture The Flag (CTF) competitions. Completed 120+ rooms on TryHackMe alongside practical VulnHub labs, achieving a **Top 3% global ranking** on TryHackMe. Proficient in Burp Suite, Nmap, Wireshark, Metasploit, Linux, and OWASP Top 10 methodologies, with practical exposure to API security, vulnerability assessment, and network security. Currently expanding expertise in SOC operations, SIEM, threat detection, and incident response while seeking to contribute as a Cyber Security Intern.

Education

B.Sc.(Engg) in Information and Communication Technology
Mawlana Bhashani Science and Technology University, Bangladesh

CGPA: 3.56/4.00 | June 2026

Technical Skills

- **Offensive Security:** Penetration Testing, Vulnerability Assessment, Web Application Security, API Security Basics
- **Security Tools:** Burp Suite, Nmap, Wireshark, Metasploit, Gobuster, Rustscan, LinPEAS, WPScan
- **Web Security:** OWASP Top 10, SQL Injection, Authentication Testing, Directory Enumeration
- **Networking:** TCP/IP, DNS, HTTP/HTTPS, FTP, SSH, SMB, VPN
- **Operating Systems:** Kali Linux, Ubuntu Linux, Windows 10/11
- **Programming:** Python, C, C++, PowerShell
- **Version Control:** Git, GitHub
- **Learning Areas:** SOC, SIEM, Log Analysis, Incident Response, MITRE ATT&CK

Hands-on Cybersecurity Experience

Self-directed Cybersecurity Research and Lab Practice

2024 – Present

- Completed 120+ TryHackMe rooms and practical VulnHub labs covering Linux, Windows, Active Directory Basic, Web Security, Networking, and Privilege Escalation.
- Performed reconnaissance, vulnerability assessment, exploitation, privilege escalation, and post-exploitation using Burp Suite, Nmap, Wireshark, Metasploit, Gobuster, Rustscan, LinPEAS, and WPScan.
- Practiced identifying SQL Injection, Cross-Site Scripting (XSS), File Inclusion, Authentication flaws, and OWASP Top 10 vulnerabilities.
- Ranked among the Top 3% of TryHackMe users through continuous learning and Capture The Flag (CTF) participation.

Projects

- **CyberJobBot** – PowerShell-based bot that collects cybersecurity jobs and sends real-time Telegram notifications.
- **TryHackMe & VulnHub Portfolio** – Documented penetration testing methodology, findings, and remediation across hands-on labs.
- **Home Penetration Testing Lab** – Built a virtual lab using Kali Linux for web, Linux, and network security practice.
- **Malicious Package Detection Research** – Undergraduate research on machine learning-based malicious package detection using static analysis.

CTF Experience

- **EWU National RoboFest 2026 CTF Grand Finale** 6th Place
Represented Team **Bit_Bakers**, finishing among the Top 40 finalist teams selected from 247 university teams nationwide.
- **Cybernauts 2026 CTF Grand Finale**
Represented MBSTU at the onsite Grand Finale after advancing as one of the Top 60 teams selected from 267 university teams across Bangladesh.
- Solved challenges in Web Security, Reverse Engineering, Binary Exploitation, Cryptography, Linux, and OSINT across national CTF competitions and TryHackMe.

Certifications & Continuous Learning

- Top 3% Global Ranking – TryHackMe
- Completed 120+ TryHackMe Rooms
- SOC Fundamentals, SIEM, Incident Response (In Progress)
- OWASP Top 10 & API Security

Activities

- Active participant in cybersecurity communities, CTF competitions, and TryHackMe.
- Maintain GitHub repositories and cybersecurity write-ups while continuously improving offensive and defensive security skills.
